
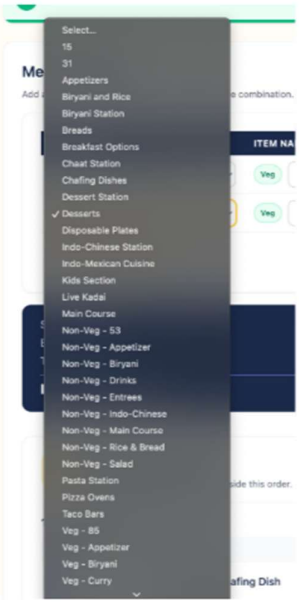
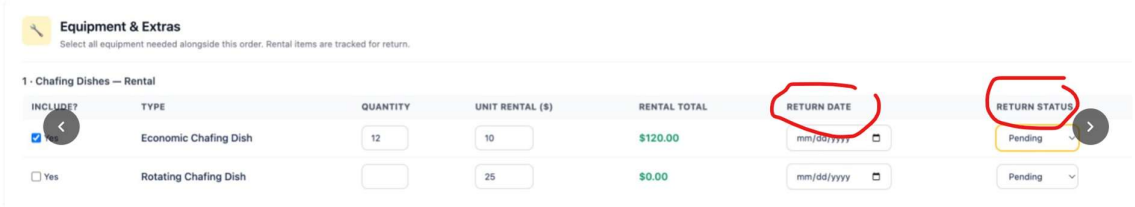
Remove the repetitions here and all the items where there is redundancy



4) look at items that are trash (get rid of them)
15,31, non-veg-53,veg - 85



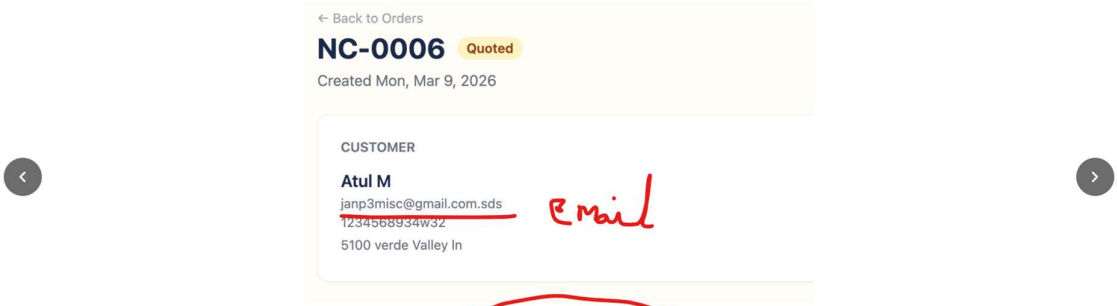
5) Get rid of last two columns
Return date and return status

6) The stations may not have information that can go forward, we have the stations selections in the bottom separately.

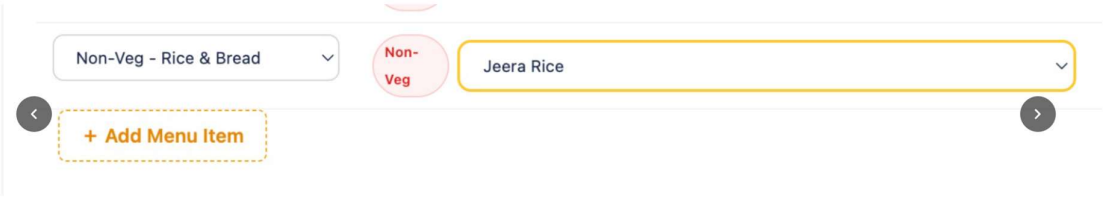
I belive we should only keep the core products and offerings like

veg appetizer...

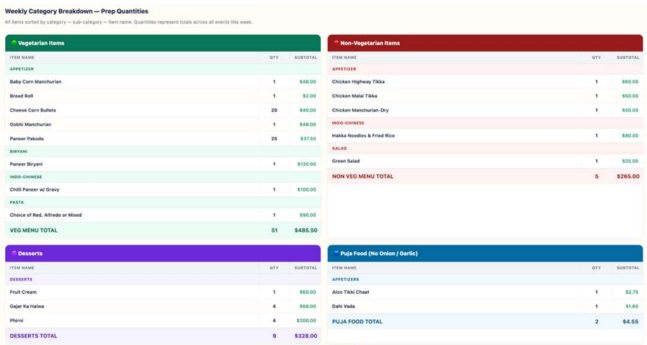
7) Could you please place this below
- Other / Additional Equipment



Addition to point #1
the false responses will propogate



9) Wrong classification. Probably need to only enable right ones



Weekly Category Breakdown — Prep Quantities

All items sorted by category — sub-category — item name. Quantities represent totals across all events this week.
